- Co-host of The Woodard Report[™] Podcast
- Most Influential People in Accounting 2019
- Top 50 Women in Accounting
- Top 10 ProAdvisor 2017 & 2019

Heather Satterley, CPA
Dir. Of Education & Media
Woodard™

Framework for Practice Planning – Part 1

Outcomes You Need to Drive to "Liberate" Your Practice

Outcome 1: Liberate Data from the 5 Data Prisons

Paper

Local Drives

Email Exchanges

Voiced Information/Exchanges

People (i.e., Brains)

Note: This liberation process involves moving from QuickBooks Desktop to QuickBooks Online!

Outcome 2: Automate Data Entry

- Reduction in Human Workers → Increased Profit Margins
- Decreased Errors and Omissions → Increased Profit Margins
- Increases in Efficiencies → Increased Profit Margins
- Practice Modernization → Increased Practice
 Valuation
- Competitive Advantage/Practice Distinction
 - →Stronger Growth Potential
 - → Pricing Leverage
- Enhanced Client Experience
 - → Streamlining (and Mobilization) of Client Interactions
 - → Enhanced security and fraud prevention
 - → Real Time Financial Information ② Financial Insights/Advisory

Collections

401k Management

Accrual Basis Entries

Outcome 3: Create a Liberation Pathway for Clients with Inventory Tracking and Job Costing

- Option 1: Invest in learning QBO-integrated software solutions that solve for these industry needs → Offer consulting services and resell one or more of these solutions
- Option 2: Expand your practice to include clients with inventory tracking and/or job costing by partnering with a consultant and QBO-integrated product expert

Most software solutions provide an online, public directory of consultants who have certified on their products. This is a great place to find a partner for Option 2 above. You can also contact the sales department for the software company and ask for introductions to consultants in your area.

Why Support Clients with Inventory Tracking and/or Job Costing Needs?

These clients are typically...

- Larger/less fee sensitive (especially with inventory tracking)
- Quicker to value real-time financial information especially the P&L above Gross Profit (especially for job costing)
- For larger businesses in these categories, quicker to Seek Operational-Level Advisory Services
 - Spend Management
 - Cost controls for Products and Parts
 - Spend policies for inventory managers and traveling sales reps
 - Accounts Receivable Management (Especially with inventory tracking)
 - Cash Flow Management
- Supported by a value-added reseller/consultant → Referral sources for accounting and bookkeeping services
- Part of millions of businesses making a move in the near future off QuickBooks Desktop

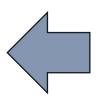

Important: For this opportunity to be profitable, the client must be digitally transformed — meaning in the cloud with tight integration with QB Online!

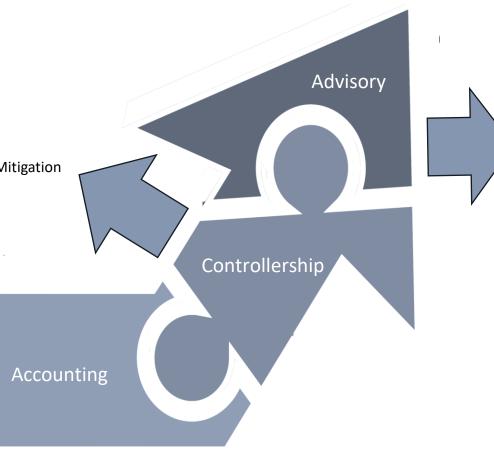

Outcome 4: Elevate Your Practice's Value Proposition

- Real Time Financial Information
 - Upgrade: Payroll Compliance
 - Upgrade: Sales Tax (SALT)
- Monthly Q&A about Financial Reports
- Value Added Services
 - Entry Level Financial Measurements
 - AR Monitoring and Bad Debt Expense Mitigation
 - Cash Flow Projections
 - Spend Management
 - Fixed Asset Management
 - Budget Curation
 - Forecasting
- Record Keeping
- Recording Adjusting Entries
- Monthly/YE Closes

- Financial Analytics
- Information
 Organization and
 Democratization
- Technology Assessment and Strategy
- Team Management and Leadership
- Process Evaluation and Improvements
- Strategic Planning

Poll 2 of 4

For what percentage of your clients do you provide outsourced controllership services?

Three Tiers of the Elevated Practice

Product: **Compilation** at 12 Times per Year Two Weeks After the Fact

Tier 1:

- Monthly Record Keeping with Monthly Close
- Recording Adjusting Entries
- Monthly YE Closes
- Monthly Q&A about Financial Reports

Product: Visibility, Analysis, and Actionable Information →
Savings/Journey Protection

Tier 2:

- Real Time Record Keeping
 - Upgrade: Sales Tax Calc and Filing*
 - Upgrade: Payroll Processing, Filing
 - Upgrade: Payables Processing
 - Upgrade: Full Back Office Outsourcing
- Semi-Monthly Q&A about Financial Reports
- Pick One
 - Cash Flow Projections
 - AR Monitoring and Bad Debt Expense Mitigation
 - Financial Measurements
 - Budget Curation and Spending Controls
 - Fixed Asset Management

Business Transformation

Tier 3

- Financial Analytics, Dashboards, and Actionable Measurements/Metrics
- Information and Data Curation, Organization and Democratization
- Technology Assessment and Modernization Strategy
- Management and Leadership Coaching
- Process Evaluation and Improvements
- Strategic Planning (Short and Long Term)

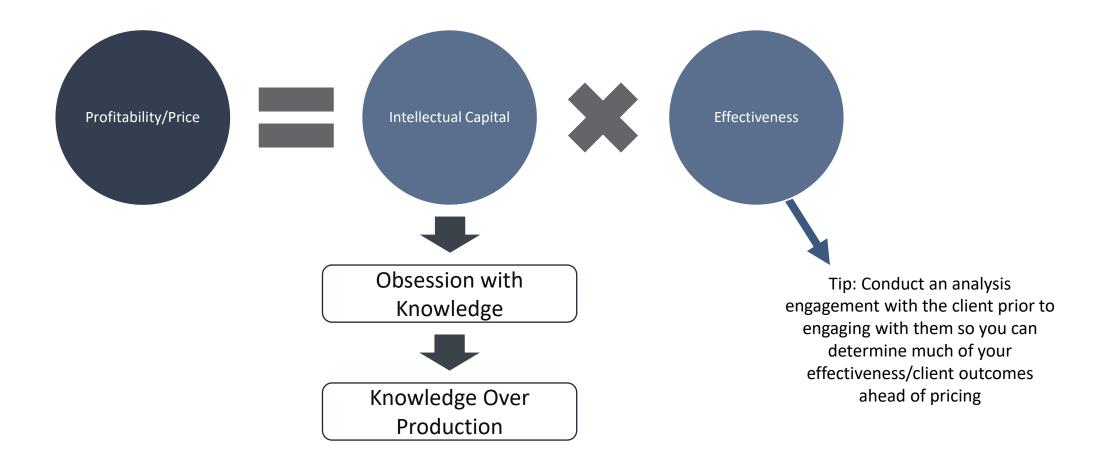

Note: Tier 2 requires no formal financial analysis experience or certifications Note: Tier 3 could be Full Back Office Outsourcing.

^{*} When offering sales tax calculation and filing, we strongly recommend access to a sales tax representation and compliance expert

Outcome 5: Adopt the Correct Pricing Equation

Outcome 8: Standardize Processes and Technology

- You define the product, not the client.
- You define the process, not the client.
- Each person in the firm adopts the process start to finish without help from management /ownership.
- You define the systems (e.g., software), not the client.
- You define the services you will deliver through your systems, not the client (or the client's needs).
- You democratize the process among your team.

Framework for Practice Planning – Part 2

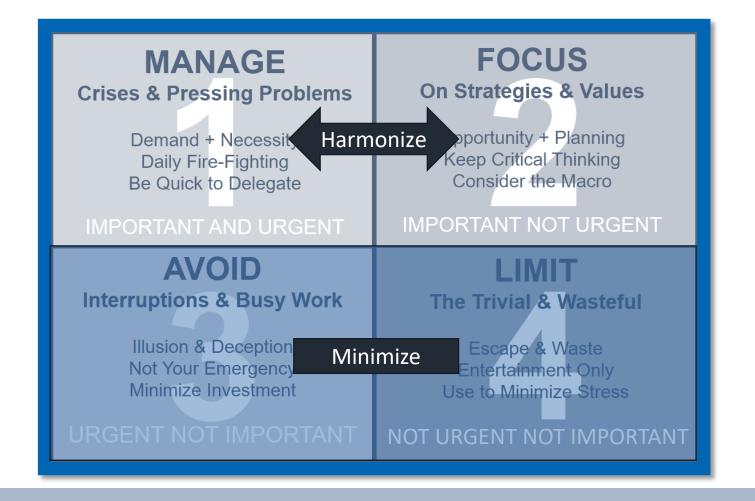

Prioritizing the Outcomes

The Eisenhower Matrix

The Pareto Principle

Three Key Questions

- What is Required of Me? (Personal Responsibility)
- What Gives Me the Greatest Return? (Outcomes/Results)
- What Gives me the Greatest Reward? (Based on VMP)

When these three align *and* are consistently exercised through the Pareto principle, you will have harmonized Quadrants 1 and 2

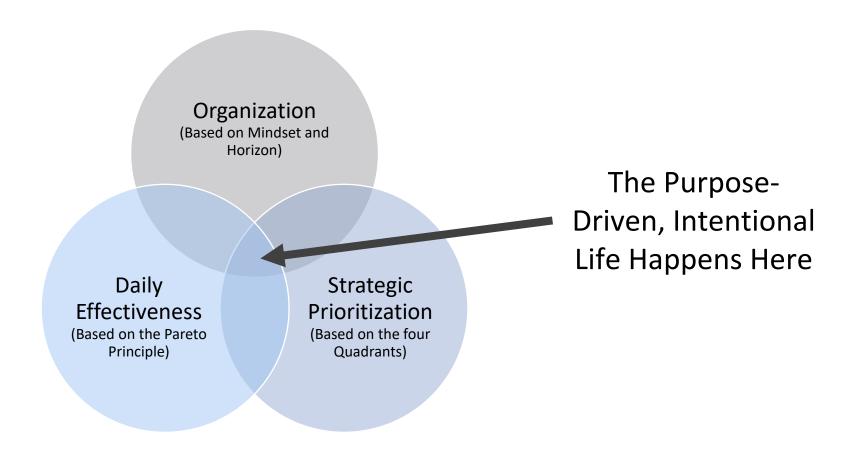

Applying the Principle

- Pull from your Capture the Tasks You Plan to Perform in a Single Day
- Identify the 20% of those Tasks that Will Generate the Strongest Outcomes Based on the 3 Key Questions
- 3. Prioritize the Other 80% only After you Complete the 20%.
 - Or Delegate Them?
 - Or Defer Them?
 - Or Delete Them?

Three Considerations for Daily Prioritization

Section 2

Change Leadership

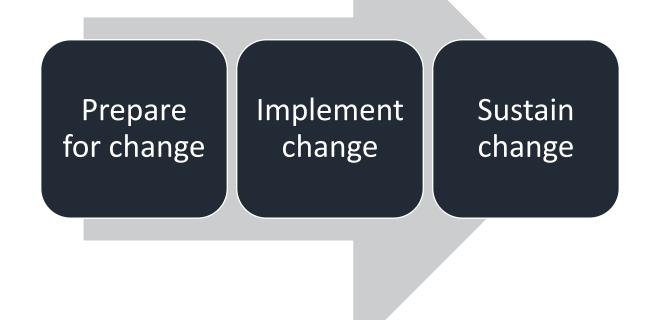

Reasons People Resist Change

Change Management – Core Principles

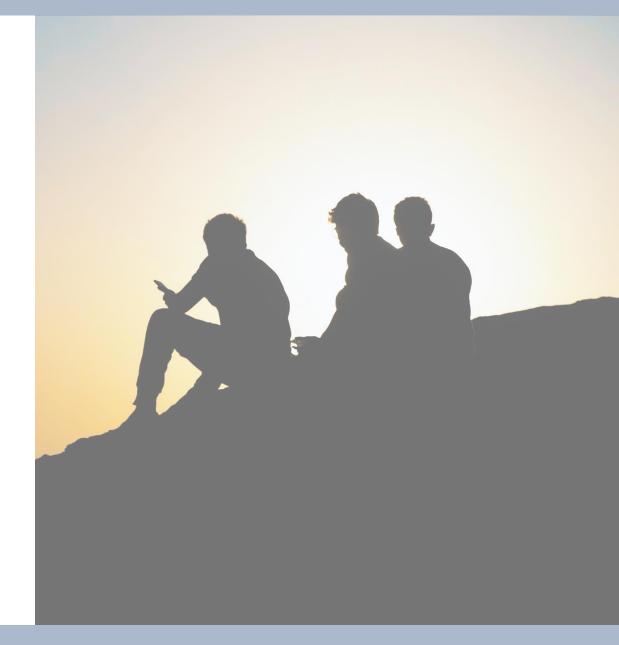

Prepare for change

- Create awareness and a sense of urgency
- Form a strong coalition
- Develop a clear vision

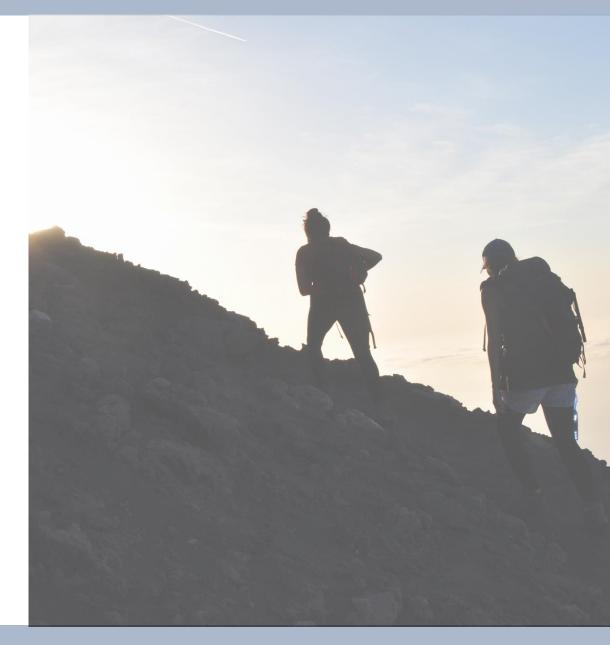

Implement change

- Consolidate gains and keep building on the change
- Anchor new approaches in the organizational culture
- Reinforce and support the change for long-term success

Sustain change

- Consolidate gains and keep building on the change
- Anchor new approaches in the organizational culture
- Reinforce and support the change for long-term success

Strategies to help others overcome their resistance to change

- Communicate change clearly and honestly
- Form a change management project team
- Involve clients or team members in the decisionmaking process
- Provide support and training for new skills
- Acknowledge and address emotions and concerns
- Manage expectations and be transparent about potential challenges
- Foster a culture of adaptability and resilience

Termination should be the last resort

Continuous Communication

Maintain a dialogue to understand the employee's concerns and provide clarity on the changes.

Coaching

Offer guidance and mentorship to help the employee develop new skills and adapt to new processes.

Support

Provide resources and assistance to help the employee feel more comfortable with the change.

Monitor Performance

Track the employee's progress and address any ongoing issues or concerns

Consider Termination

If all efforts to help the employee adapt have failed, and they continue to obstruct progress, termination may be necessary.

What Comes Next?

- Over the coming weeks we will launch the recordings of this series for ondemand viewing...for a limited time only!
- Watch Your Emails for the Launch of this Limited-Time, On-Demand Option
- Bookmark the page for handouts and upcoming on-demand videos: Woodard.com/Webinars – as well as future webinar offerings by Woodard!
